Vegetarian?

Seasonality

SQL,

Do you have an idea of what could cook as a main?

← I have this in my fridge what I cook with it?

Do I have enough money to cook for the children?

but not a main dish that takes only 25min? Filter comparison operator + ORDER by DATE

Does my dish consider my peanut allergies?

Is my dish vegetarian?

Select a dish that has not the allergy ... (Filter not in)

I want to cook recipe one and two can you make me a grocery list ( sum)

Customer

- Basket

We could use

`BIND(UCASE(?name) AS ?upperName)`

Q: calculate the average costs of the dishes and add a new var to product with the price.

Q: inheritate the allergies from ingredients to recipies.

Q: calculate the pricing over all ingredients wiht groupby in all the recipies.
